

## Empower Virtual Team conversations with enterprise content to build a high-performance remote workforce

Emphasizing to bring in the power of instant collaboration and communication while working remote is of paramount significance to build a high performing virtual team. This is why we look for ways to gain actionable insights via Teams conversations that could drive the productivity of legal teams.

A value-added tech-enabled innovation like the netDocShare Teams app enables law firms and general counsels to maximize knowledge access by empowering virtual team conversations with enterprise content right within Microsoft Teams. team with security features. Without a proper solution in place, it becomes difficult to manage each case for search, sort, and web portal interface.

The industry requires a strong value proposition that would allow the seamless experience of working across both these solutions without having to move the files from their primary location.

## **Bring your Virtual Team and Enterprise Content together in Microsoft Teams**

netDocShare Teams app for Microsoft Teams assists your employees quickly access NetDocuments content right inside of Microsoft Teams and ultimately saving your productive hours.
